Objective

I am a motivated Computer Information Systems major at the University of South Carolina, seeking opportunities to improve my technical skills in CSS, Java, and HTML to contribute to dynamic projects. I am enthusiastic about expanding my knowledge and experience in software development and web design.

Education

- **Ninety-Six High School** – Graduate with one AP course, two college-level dual enrollment courses
- **University** – University of South Carolina
- **Major** – Computer information systems
- **Anticipated graduation date** – April 2028

Experience

- Problem-solving
- Team Collaboration
- Adaptability
- Quick thinking under pressure

Skills

- **Languages:** Java, HTML, CSS
- **Developer skills:** Git, GitHub, Visual Studio Code, Eclipse, Responsive Web Design, Front-end Development
- Consistent 60-70 words per minute
